#### Group Reviews

Don's strengths were his experience, knowledge and ability to simplify complex concepts with "catch phrases." I would recommend that he provide fewer concepts so that they can be explored more deeply and interactively. Then members can apply them in their companies and lives.

Don offered great stuff! His presentation offered a lot of material that adversely impacted the amount of time we had to explore them more deeply.

Don was excellent and interactive with the group. He offered several good "bits" that can be directly applied.

Don needs more interaction with the audience.

I thought Don's presentation was very powerful. It required us to not only think, but more importantly, to feel.

This was a very useful presentation given by Don. It was great!

Don's presentation was provoking and engaging. Great stuff!

Don is one of the best speakers we've ever had!
