### Group Reviews

Very high knowledge of subject matter. It was current and applicable - good mix of presentation style.

High knowledge of subject matter and he also had good references. He translates his concepts to reality situations.

Excellent knowledge of subject matter. Liked his blend of legal knowledge with psychology and personal growth.

Very strong knowledge of subject matter. I liked the more philosophical approach versus the legal, protect your ass approach - i.e. he preaches preventative medicine. He could use more time.

Brilliant and thoughtful. His presentation is very, very valuable and he has a very engaging personality.

Unique!! I liked his perspective on relationships. He could shorten his presentation some way.

Excellent - he has really broken down a very difficult process. I liked that he was down to earth and he gave examples we could use. He needs more time - I could listen to him all day.

Very knowledgeable of subject matter. Liked his specific examples. He could reduce the number of subjects discussed but go deeper into specifics.

Don had great content. Sometimes he was hard to follow; and occasionally what he was saying didn't seem to apply to the overall topic of hiring and training. He had a lot of valuable tips and tools. I'll definitely check out his website.
